

CALIPER MOUNTING

Estelle 1977 to 1983 & 1984 on. 105/120 Saloons (2 Piston)

The caliper is mounted on the bracket after selecting shims to achieve a mounting distance of 18.7 mm from the disc to the caliper mounting face.

Estelle 130 and all Rapid Models

The caliper may be mounted directly to the mounting bracket without the use of shims. The designed measurement from the disc face to the caliper face is for 9mm disc 17.4 to 17.6mm, for 9.5mm disc 17.15 to 17.35mm.
